

Program

15 December 2021 Doltone House, Jones Bay Wharf

8:30am Registration with Tea & Coffee @ Level 3

9:15am Welcome to Country

Aunty Ann Weldon Metropolitan Local Aboriginal Land Council

9:30am Healthier Lives

We are throwing the full weight of the tech mix at some of our biggest health challenges. How can Australia build capabilities to diagnose, treat and eliminate our most burdensome and deadliest health conditions?

- **Dr Michelle Deaker** OneVentures
- **Malcolm Hebblewhite** Atmo Biosciences
- **Dr Christos Papadimitriou** Tessara Therapeutics
- **Sally-Ann Williams** Cicada Innovations

10:15am Revolutionising the way things get done

We shape our tools – thereafter, our tools shape us. Are we prepared for a new era of ‘supertools’ that amplify our intelligence, accelerate invention, speed up research and revolutionise our processes? Could we retool into smarter ways of working?

- **Dr Natalie Curach** Bioplatforms Australia
- **Prof Ray Dagastine** Tiny Bright Things
- **Prof Baohua Jia** Swinburne University of Technology
- **Mark Pesce**
- **Phil Morle** Main Sequence Ventures

11:00am Morning Tea

11:30am Reimagining the way we live to restore planet health

It is 2030. What clean, safe and unlimited energy will be ours? What infrastructure, housing, transport have we achieved in reshaping? And what will be still in the offing? Let's discuss short-term and long-term horizons for meeting our needs while restoring planet health.

- **Louise Brown** HydGene Renewables
- **Dr Andrew Harris** Laing O'Rourke, University of Sydney
- **Erich Kisi** MGA Thermal
- **Dr Megan Sebben** CSIRO
- **Ninotschka Titchkosky** BVN

12:15pm The impact of ESG on Deeptech

Many founders in the Deeptech space are focused on solving big picture problems related to Environmental, Social and Governance (ESG). While the initial focus will be on venture capital, what does the ESG framework look like over the next decade globally which companies will need to embrace?

How will decisions, governance, finance and supply chains be impacted as we advance ESG initiatives?

What can deeptech companies do now that will support their efforts over the next decade?

- **Patty Akopiantz** Assembly Climate Capital
- **Ranya Alkadamani** Impact Group International, Vulcan Energy Resources
- **Dr Charlie Day** Jupiter Ionics
- **Martijn Wilder** Pollination

1:00pm Pre-lunch Drinks

1:15pm Seated for Lunch
